Along other light sensitive materials supplied for various markets, Geola Digital is glad to offer the self-processing Color Photopolymer **Bayfol® HX200** film in two shapes, **rolls** and **sheets**.

The standard **Bayfol HX200** roll sizes are:

Roll length, m	Roll width, cm	Roll area, m ²
1	30	0.3
10		3
15		4.5
25		7.5
50		15
100		30
150		45

The standard **Bayfol HX200** sheet packages are:

Q-ty per pack	Sheet size, cm	
18	10	10
18	10	15
10	15	15
10	15	20
5	20	30
10	20	30
10	30	30
5	30	40

If you need any other custom sizes, please let us know and we do our best to supply special sizes also.

The lead time is from the stock, **1-3 days**.

For any additional information on materials and hologram replication machines (**EXLIBRO-200R**), please contact Geola Digital UAB sales team at info@geola.com

Sincerely yours,
Geola Digital UAB team
